Winzip rar- utils.rarcut.rarcut-unzip.rarctu.rar Well in summary: -- 4 folders in all -- Some RAR archives (full version) of the actual video -- 6 folders in all (all the folders not the RARs themselves) -- Some URL's pointing to the videos -- A folder called 'Downloads' with 4 RAR archives What I'd like to do is delete everything but the rar archives and the video itself. As well as the video itself, I'd like to save everything else (with the exception of the RAR archives) so that I can then repair the remaining files. Could someone please help me? A:

Download 7-Zip. It's free and very useful. Make sure to install all the components that the "7-zip installer" tells you to. Try deleting the following folders: %USERPROFILE%\Local\Apps\7-Zip
%USERPROFILE%\Local\Temp\7-Zip
%USERPROFILE%\Local\Temp\Shared\7-Zip
These are the default paths for where 7-Zip stores its temporary data. If they're still there, delete them too. If you're not in a hurry, you could download 7-Zip to a different directory, say C:\tools\ and simply move the files as you're deleting them. Q: How to draw 2D grid in GLSL on OpenGL ES 2.0?
